data and cases

- The first time we see a strategy with such impact
- A clear strategy with the longterm strategic direction
- The use of the SDGs grounded in municipal priorities not just an extra layer
- Room for employees to translate the goals meaningfully into core operations
- 'License to act' shared commitment to develop new solutions
- Both large-scale strategic projects and small-scale changes count
- The SDGs provide a shared language
- We cannot make the changes alone partnerships for action
- Great potential in inspiring each other
- Voluntary Local Reviews to the UN to share Gladsaxe's approach and results

3 RECOMMENDATIONS

- Include all areas of the organization

 not just one committee, branch or sector
- Integrate the SDGs into core operations

 not as an add-on
- Be specific and get started
